

Automation testing

Day-09 Assignment

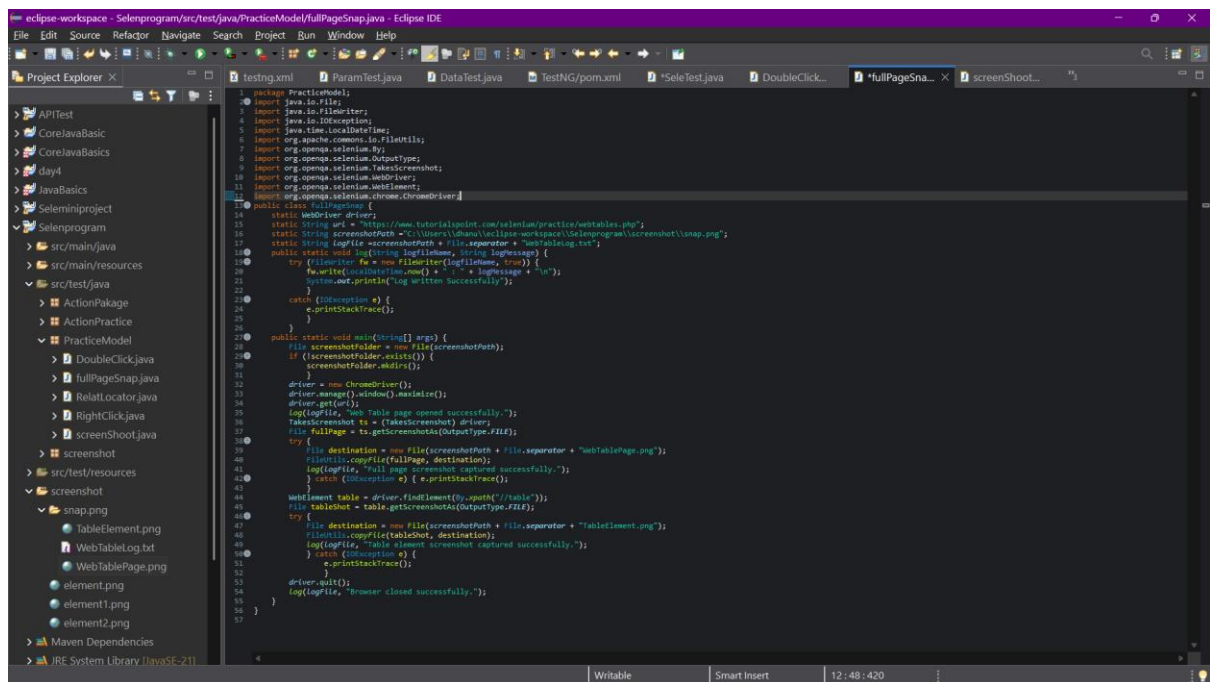

1. Navigate to

<https://www.tutorialspoint.com/selenium/practice/webtables.php>

2. Take screenshot of this page and also element screenshot of table

3. Create a log method which should accept parameters as logfile name and log message

Program:

```
1 package PracticeModel;
2 import java.io.File;
3 import java.io.FileWriter;
4 import java.io.IOException;
5 import java.time.LocalDateTime;
6 import org.apache.commons.io.FileUtils;
7 import org.openqa.selenium.By;
8 import org.openqa.selenium.OutputType;
9 import org.openqa.selenium.TakesScreenshot;
10 import org.openqa.selenium.WebDriver;
11 import org.openqa.selenium.WebElement;
12 import org.openqa.selenium.chrome.ChromeDriver;
13
14 public class FullPageSnap {
15     static WebDriver driver;
16     static String url = "https://www.tutorialspoint.com/selenium/practice/webtables.php";
17     static String screenshotPath = "C:\\Users\\Admin\\eclipse-workspace\\Selenium\\screenshot\\snap.png";
18     static String logfileScreenshotPath = File.separator + "webtablelog.txt";
19     public static void log(String logFileName, String logMessage) {
20         try {
21             FileWriter fw = new FileWriter(logFileName, true);
22             fw.write(LocalDateTime.now() + " : " + logMessage + "\n");
23             System.out.println("Log written successfully");
24         } catch (IOException e) {
25             e.printStackTrace();
26         }
27     }
28     public static void main(String[] args) {
29         File screenshotFolder = new File(screenshotPath);
30         if (!screenshotFolder.exists()) {
31             screenshotFolder.mkdir();
32         }
33         driver = new ChromeDriver();
34         driver.manage().window().maximize();
35         driver.get(url);
36         log(logfileScreenshotPath, "Web Table page opened successfully.");
37         TakesScreenshot ts = (TakesScreenshot) driver;
38         File fullPage = ts.getScreenshots(OutputType.FILE);
39         try {
40             File destination = new File(screenshotPath + File.separator + "webTablePage.png");
41             FileUtils.copyFile(fullPage, destination);
42             log(logfileScreenshotPath, "Full page screenshot captured successfully.");
43         } catch (IOException e) {
44             e.printStackTrace();
45         }
46         WebElement table = driver.findElement(By.xpath("//table"));
47         File tableShot = table.getScreenshots(OutputType.FILE);
48         try {
49             File destination = new File(screenshotPath + File.separator + "tableElement.png");
50             FileUtils.copyFile(tableShot, destination);
51             log(logfileScreenshotPath, "Table element screenshot captured successfully.");
52         } catch (IOException e) {
53             e.printStackTrace();
54         }
55         driver.quit();
56         log(logfileScreenshotPath, "Browser closed successfully.");
57     }
58 }
```

Output:

Table element:

First Name	Last Name	Age	Email	Salary	Department	Action
Cierra	Vega	39	cierra@example.com	10000	Insurance	 
Alden	Cantrell	45	alden@example.com	12000	Compliance	 
Kierra	Gentry	29	kierra@example.com	2000	Legal	 
Alden	Cantrell	45	alden@example.com	12000	Compliance	 
Kierra	Gentry	29	kierra@example.com	2000	Legal
